

Demand the Great Tasting, Quality Drinking Water You Deserve.

Leading a healthy life is a conscious decision—one that you need to work at on a daily basis. To help you feel and perform at your best, various health experts recommend drinking at least eight glasses of water every day. And now staying healthy and hydrated are easier than ever with the exciting Culligan Water Tower™ appliance.

The Finest in Water Filtration

The *Culligan Water Tower* appliance's reverse osmosis (RO) filtration method improves the taste and odor of your drinking water and substantially reduces microscopic impurities and chemical elements*. With reverse osmosis, water passes through an ultra-thin, semi-permeable membrane, which filters unwanted particles, including sodium and lead. The result is the deliciously clear water you'd expect from the water experts at Culligan—available in the convenience of your own home, right at your fingertips.

With Culligan, Getting Clear, Great-Tasting Water Is Easy.

To enjoy the clean, invigorating water provided by the *Culligan Water Tower* appliance, just call your local Culligan expert who will professionally install the unit. Ideal for even the largest family, the *Culligan Water Tower* appliance is a cost-effective solution that will give you and your family great tasting Culligan® water for years to come. Even your kids will prefer the refreshing taste of your new, crystal-clear Culligan water—a great alternative to sugary drinks.

And don't limit yourself to just drinking the water. Use it for cooking and in a variety of other culinary ways to give you and your family:

- better-tasting coffee, tea and juices
- more flavorful soups, sauces and pasta
- richer baby formula
- clearer ice cubes
- crisper fruits and vegetables

- Available in six (6) different colors: white, almond, black, black/chrome, polished chrome, and satin chrome.
- Constructed of plastic and stainless steel.
- Easily mounts on kitchen sink.
- Comes with Smartap® Water Quality Monitor, which includes:
 - Aqua-Cleer® faucet rotary operation.
 - Air gap faucet (non-air gap version available for international).
 - Integral lights that indicate water quality and shut-off valve status (see right).

Culligan Innovation and Reliability.

Exclusive features and smart technology mean better water

• Sensors, connected to the electronics, closely monitor water quality.

• Automatic shutoff valve shuts off the system when the reservoir tank is full.

• State-of-the-art electronics automatically monitor the water quality and system operation.

• The patented fail-safe flow control monitors the water pressure in the product line, protecting the RO membrane.

• The system includes a *patented*, sleek and smart designer faucet with lead-free construction.

• A second carbon filter ensures your drinking water is clear and fresh.

• Sleek, compact styling easily fits under your sink or other convenient locations.

• The RO membrane reduces microscopic impurities and chemical elements* including sodium and lead.

• A carbon filter reduces elements that cause water to taste and smell unpleasant, including the taste and odor of chlorine.

• Limited Lifetime Warranty on *Culligan Water Tower* (excluding expendable filter cartridges and RO membrane)

- Faucet indicator lights tell you:
 - Green means quality Culligan water.
 - Orange tells you a service check is necessary.
 - Yellow means it's time for a filter change.

The *Culligan Water Tower* has been tested by NSF International and is certified to meet NSF standards for RO systems. (see back for details)

* Consult the Performance Data Sheet for the specific contaminant reduction capabilities of this device.

When It's Built by Culligan, It's Built to Last.

*Quality products
and services you
can count on.*

For over 65 years, Culligan has led the water treatment industry in innovation and service. We offer the broadest product line, more than 200 patents and a global presence. From manufacturing the finest products to delivering expert service to your home or office, we're involved in every phase of your water treatment. Of course, Culligan® products are built to last and are backed by solid warranties* and the best trained and experienced service technicians in the industry.

Why Millions Trust Culligan to Deliver the Best Water

- ✔ We manufacture our own drinking water systems. No other water treatment company holds as many patents as Culligan.
- ✔ All assembly takes place under exacting quality control.
- ✔ Culligan products possess the industry's most state-of-the-art features because we maintain our own extensive research & development facility with over 40 engineers and scientists.
- ✔ Our products are backed by the best service technicians in the industry. With over 1,100 dealers worldwide, a Culligan Man™ is always nearby. No run-around for service!
- ✔ We have the expertise to correctly identify the necessary water treatment. Your local dealer is a trained specialist with the resources of the entire Culligan system at his disposal.
- ✔ We sell and service our products in more than 90 countries globally. Wherever you go, we're there to make sure you receive the Culligan water you've come to enjoy.

The Culligan Water Tower is tested and certified by NSF International to ANSI/NSF Standard 58 for the reduction of:

Barium	Turbidity
Fluoride	Selenium
Trivalent Chromium	Cadmium
Hexavalent Chromium	Radium 226/228
Cyst ¹	Total Dissolved Solids
Lead	Copper

CAUTION: Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system.

The contaminants or other substances removed or reduced by this water treatment device are not necessarily in your water. Systems certified for cyst reduction may be used on disinfected waters that may contain filterable cysts. Source water exceeding chemical parameters requires pre-treatment.

¹ Certification for Cysts Reduction includes *Cryptosporidium* and *Giardia lamblia*.
