Culligan Water

The most efficient RO drinking water system available.

Aquasential® Smart Reverse Osmosis Drinking Water System

Not all water is equal.

Every tap is different. Depending on the location, or even the day, your water may have impurities, off-flavors, or any number of other unwanted contaminants*. Many off the shelf filters only remove the most common impurities. But now there's a smarter way to filter your water, one that addresses the unique content of your water.

The Aquasential® Smart Reverse Osmosis (RO) from Culligan®

With up to 7 stages of filtration and 12 filter options, it's certified for reduction of 58 contaminants which includes 15 emerging contaminants. These contaminants could include lead, arsenic, pharmaceuticals and volatile organic compounds (VOCs).

Connect to your water

The Culligan Connect App gives you easy, intuitive control over your Aquasential Smart RO and any other Culligan smart products. You'll get useful features like water alerts and maintenance needs, plus tools that let you:

- Set water consumption goals to help create healthy habits
- See how many contaminants are being removed for greater confidence
- Track your environmental impact and cost savings
- Get service reminders for filter changes

With an Aquasential Smart Reverse Osmosis System, you'll get...

CLEANER, SAFER WATER

UNLIMITED SUPPLY OF GREAT TASTING WATER

BETTER TASTING FOOD AND BEVERAGES

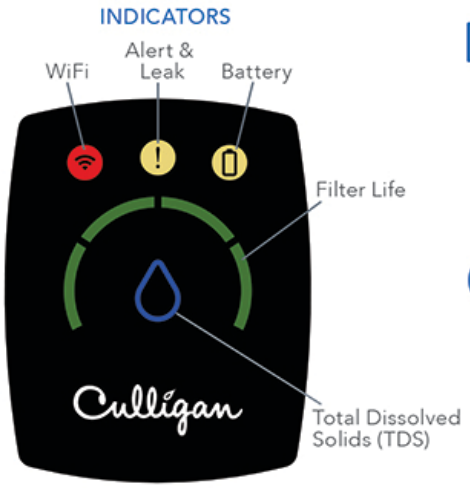
PEACE OF MIND

* Contaminants or impurities may not be in your water.

Not all drinking water solutions are created equal.

The Culligan® Aquasential® Smart RO offers various filtration options and can be tailored to meet your specific water needs.

The Aquasential Smart RO Drinking Water System can be configured with advanced specialty filters that target specific contaminants such as lead, volatile organic compounds (VOC's), pesticide runoff** and other types of emerging contaminants such as PFOA/PFOS.



Faucet Electronic Display

DESIGN
- Sleek, modern look
- Most efficient RO on the market

PREMIUM FAUCET
- Electronic display providing performance feedback
- Metal construction
- Modern design in Brushed Nickel, Chrome, Matte Black and Bronze

SMART RO
- Most efficient RO on the market
- W-Fi connected for instant performance feedback
- Dealer-monitored remotely for better service (optional)
- Leak detection with auto shut-off

ADVANCED FILTRATION
- Targets contaminants such as lead, arsenic, volatile organic compounds, and other emerging contaminants such as PFOA/PFOS

Healthy water for home or office
The Aquasential Smart RO system includes a drinking water faucet with instant performance feedback.

Less cost, less hassle
Aquasential Smart RO's long-lasting filters give you a continuous supply of great tasting water for pennies a glass, without the hassle of single-use bottles.

It's easy going green
Each Aquasential Smart RO system helps reduce the amount of plastic bottles that end up in landfills along with decreasing the amount of oil and gasoline used to produce and deliver them.

Hey Culligan!
Your Culligan drinking water system comes with your own personal Culligan Water expert. With over 85 years of water treatment experience, you can trust that they will help you find the right system for your family's water needs.

Water Concerns

Over two-thirds

67%*

of consumers across North America are concerned about the quality of their household water supply.

* National Consumer Water Quality Association (WQA) research survey, 2009

** Not evaluated by WQA.

Product Specifications

2-in-1 Sediment & Carbon Filter
Screens out sediments and particles. Reduces elements that cause water to taste and smell unpleasant, including the taste and odor of chlorine.

Reverse Osmosis Filter
Reduces dissolved substances such as radium, arsenic V, and many others.[1] Various capacity membranes are available.

Optional Specialty Filters
Specialty filters are available that provide a range of benefits including pH balance or the reduction of additional substances[2] such as VOC[3], pharmaceuticals and mercury.

Post Carbon Filter
A second carbon filter ensures your drinking water is cleaner and fresh.

Manifold Assembly
Molded using SteriTouch® resin, the patented single manifold ensures reliability and houses four separate filters.

Designer Faucet
Multiple finishes are available. Premium metal construction faucet has water quality alerts and filter life indicators in an easy to read display.

Reservoir Tank
Durable, high quality jacketed steel tank ensures you'll have a plentiful supply of refreshing water.

Built-in Quality Monitor
State-of-the-art electronics automatically monitors the water quality.

CAUTION: Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system.

The contaminants or other substances removed or reduced by this water treatment device are not necessarily in your water. Source water exceeding chemical parameters requires pre-treatment.

1. Consult the Performance Data Sheet for the specific contaminant reduction capabilities of this device.
2. Substances are not necessarily in your water.
3. VOC is a broad term used to describe many chemicals and compounds that are known carcinogens.

The Culligan Commitment
At Culligan we are committed to providing the highest quality products. Our units are tested to the highest standard and use parts that are corrosion resistant. Culligan also offers the most experienced, professional service. Since 1936, you can count on Culligan's tradition of innovation and service in the water treatment industry. A trained technician will install and program your home system. Your Culligan dealer is easy to work with as we can provide salt delivery, filter and media changes, rentals and financing is also available.
